

Working with a business from the Backyard Habitat Arborist & Landscape Professionals Directory

Program Participants:

Are you interested in working with a professional from our directory?

Steps for working with a professional:

- Feel free to **invite** them to your site visit.
- **Share** with them the site report you receive after your visit.
- **Discuss** how they can help incorporate the 5 elements of the program into your project:

**Noxious Weed
Removal**

**Native
Plants**

**Pesticide
Reduction**

**Stormwater
Management**

**Wildlife
Stewardship**

If you're working towards certification, keep in mind:

- We're looking for **5% or more** of your outdoor space to have groupings of multiple native canopy layers where a majority of the plants are from the *Portland Plant List*.
- For the purposes of our program, **cultivars and hybrids are considered ornamental (non-native)** due to their unknown value to wildlife.
- If you have questions, feel free to reach out to us.

Working with a Backyard Habitat Program Participant

Arborists & Landscape Professionals:

Are you helping a client with their backyard habitat?

Consider the following when working with a participant:

- **Offer** to join them for their site visit.
- **Ask** them to share their site report with you.
- **Discuss** how you can help incorporate the 5 elements of the program into their project:

Noxious Weed Removal

Native Plants

Pesticide Reduction

Stormwater Management

Wildlife Stewardship

If they're working towards certification, keep in mind:

- We're looking for **5% or more** of your outdoor space to have groupings of multiple native canopy layers where a majority of the plants are from the *Portland Plant List*.
- For the purposes of our program, **cultivars and hybrids are considered ornamental (non-native)** due to their unknown value to wildlife.
- If you have questions, feel free to reach out to us.
