

This is a condensed list of the Portland Plant List's Prairie biome. Please use for easy reference. This is not a specific BHCP plant list recommendation.

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

LARGE TREES (More than 30ft)

Common Name	Scientific Name	Moisture Conditions
Pacific Madrone	<i>Arbutus menziesii</i>	Dry
Willamette Valley ponderosa pine	<i>Pinus ponderosa</i> var. <i>benthamiana</i>	Dry
Oregon White Oak	<i>Quercus garryana</i>	Dry

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

SMALL TREES (Up to 30ft)

Common Name	Scientific Name	Moisture Conditions
Bitter Cherry (not listed in this biome, but good recommendation)	<i>Prunus emarginata</i>	Any moisture

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

LARGE SHRUBS (Up to 20ft)

Common Name	Scientific Name	Moisture Conditions
Tall Oregon Grape	<i>Berberis (Mahonia) aquifolium</i>	Any moisture
Oceanspray	<i>Holodiscus discolor</i>	Any moisture
Nootka Rose	<i>Rosa nutkana</i>	Any moisture
Western Serviceberry	<i>Amelanchier alnifolia</i>	Dry-moist
Mockorange	<i>Philadelphia lewisii</i>	Dry-moist
Red Flowering Currant	<i>Ribes sanguineum</i>	Dry-moist
Sticky Currant	<i>Ribes viscidissimum</i>	Dry-moist
Blackcap Raspberry	<i>Rubus leucodermis</i>	Dry-moist
Oval-leaved Viburnum	<i>Viburnum ellipticum</i>	Dry-moist

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

SMALL SHRUBS and FERNS (Up to 5ft)

Common Name	Scientific Name	Moisture Conditions
Baldhip Rose	<i>Rosa gymnocarpa</i>	Any moisture
Pacific Blackberry	<i>Rubus ursinus</i>	Any moisture
Common Snowberry	<i>Symphoricarpos albus</i>	Any moisture
Oregon Tea-tree	<i>Ceanothus sanguineus</i>	Dry
Creeping Snowberry	<i>Symphoricarpos mollis</i>	Dry

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

HERBACEOUS LAYER – GRASSES, SEDGES, and RUSHES:

Common Name	Scientific Name	Moisture Conditions
California Brome	<i>Bromus carinatus</i>	Any moisture

Columbia Brome	<i>Bromus vulgaris</i>	Any moisture
Lemmon's Needlegrass	<i>Acnatherum lemmonii</i>	Dry
California's Needlegrass	<i>Acnatherum occidentale ssp. Californica</i>	Dry
California Fescue	<i>Festuca californica</i>	Dry
Roemer's Fescue	<i>Festuca roemeri</i>	Dry
Pine Bluegrass	<i>Poa secunda</i>	Dry
Blue Wildrye	<i>Elymus glaucus ssp. glaucus</i>	Dry-moist
Western Fescue	<i>Festuca occidentalis</i>	Dry-moist
Field Woodrush	<i>Luzula campestris</i>	Dry-moist
Ticklegrass	<i>Deschampsia danthinoides</i>	Moist-seasonally wet
Junegrass	<i>Koeleria macrantha</i>	Moist-seasonally wet
One-sided Sedge	<i>Carex unilateralis</i>	Seasonally wet-submerged

PRAIRIE/OAK SAVANNA: Full sun, seasonal moisture to dry.

HERBACEOUS LAYER – PERENNIALS, ANNUALS, BIENNIALS (forbs)

Common Name	Scientific Name	Moisture Conditions
Columbia Tickseed	<i>Coreopsis tinctoria var. atkinsonia</i>	Any moisture
Small-Flowered Prairiestar	<i>Lithophragma parviflorum</i>	Dry
Wooly Head Clover	<i>Trifolium eriocephalum</i>	Dry
White-Tip Clover	<i>Trifolium variegatum</i>	Dry
Common Yarrow	<i>Achillea millefolium</i>	Dry
Hall's Thistle	<i>Cirsium hallii</i>	Dry
Farewell to Spring	<i>Clarkia amoena</i>	Dry
Common Clarkia	<i>Clarkia rhomboidea</i>	Dry
Purple Sanicle	<i>Sanicula bipinnatifida</i>	Dry
Sleepy Catchfly	<i>Silene antirrhina</i>	Dry
Pinole Clover	<i>Trifolium bifidum</i>	Dry
Small-Head Clover	<i>Trifolium microcephalum</i>	Dry
Thimble Clover	<i>Trifolium microdon</i>	Dry
Few-Flowered Clover	<i>Trifolium oliganthum</i>	Dry
Sand Clover	<i>Trifolium willdenovii</i>	Dry
Canary Violet	<i>Viola praemorsa var. praemorsa</i>	Dry
Tolmie's Mariposa	<i>Calochortus tolmiei</i>	Dry-moist
Rattan Collinsia	<i>Collinsia rattannii</i>	Dry-moist
Broad-leaved Shooting Star	<i>Dodecatheon hendersonii</i>	Dry-moist
Wild Strawberry	<i>Fragaria virginiana</i>	Dry-moist
Checker Lily	<i>Fritillaria affinis</i>	Dry-moist
Nevada Peavine	<i>Lathyrus nevadensis</i>	Dry-moist
Slender Tarweed	<i>Madia gracilis</i>	Dry-moist
Northern Navarretia	<i>Navarretia tagetina</i>	Dry-moist
Slender Cinquefoil	<i>Potentilla gracilis var. gracilis</i>	Dry-moist
Red Columbine	<i>Aquilegia formosa</i>	Moist
